## **Freedom of information act**

This model publication scheme has been prepared and approved by the Information Commissioner. It may be adopted without modification by any public authority without further approval and will be valid until further notice.

This publication scheme commits an authority to make information available to the public as part of its normal business activities. The information covered is included in the classes of information mentioned below, where this information is held by the authority. Additional assistance is provided to the definition of these classes in sector specific guidance manuals issued by the Information Commissioner.

### **The scheme commits an authority:**

- To proactively publish or otherwise make available as a matter of routine, information, including environmental information, which is held by the authority and falls within the classifications below
- To specify the information which is held by the authority and falls within the classifications below
- To proactively publish or otherwise make available as a matter of routine, information in line with the statements contained within this scheme
- To produce and publish the methods by which the specific information is made routinely available so that it can be easily identified and accessed by members of the public
- To review and update on a regular basis the information the authority makes available under this scheme
- To produce a schedule of any fees charged for access to information which is made proactively available
- To make this publication scheme available to the public
- To publish any dataset held by the authority that has been requested, and any updated versions it holds, unless the authority is satisfied that it is not appropriate to do so; to publish the dataset, where reasonably practicable, in an electronic form that is capable of re-use; and, if any information in the dataset is a relevant copyright work and the public authority is the only owner, to make the information available for re-use under the terms of the Re-use of Public Sector Information Regulations 2015, if they apply, and otherwise under the terms of the Freedom of Information Act section 19.

The term 'dataset' is defined in section 11(5) of the Freedom of Information Act. The term 'relevant copyright work' is defined in section 19(8) of that Act.

Charges may also be made for making datasets (or parts of datasets) that are relevant copyright works available for re-use. ### **Written requests**

Information held by a public authority that is not published under this scheme can be requested in writing, when its provision will be considered in accordance with the provisions of the Freedom of Information Act.

## Background

The Governing Body must ensure that the school is registered with the Information Commissioner's Office (ICO).

Also, the school must conform to the Freedom of Information Act 2000 which gives a right of access to information held by public bodies, including schools and academies (schedule 1, Part IV). <https://ico.org.uk/for-organisations/guide-to-freedom-of-information/what-is-the-foi-act/>

In line with Section 19 of this Act, schools must produce a publication scheme which makes it clear to the public what information they will make public when required to respond to requests for information under this legislation. Data Protection Education use the ICO model template for the Publication Scheme.

The school publication scheme should set out:

- The classes of information which will be published or which the school intends to publish either on their website or in hard copy version
- The manner in which the information will be published
- Whether the information is available to download from the website free of charge or via payment to the school

The publication scheme should conform to the model scheme for schools approved by the Information Commissioner (see references above) or a bespoke policy should be authorised by the Information Commissioner's Office (ICO).

## Introduction

The School is registered with the Information Commissioner's Office (ICO) and conforms with its requirements under the Freedom of Information Act 2000. This Act gives a right of access to information held by public bodies, including schools and academies, which are required to produce a Publication Scheme that makes it clear to the public what information they will make public when required to respond to requests for information.

**The Policy:** In line with advice from the Local Authority, we have adopted Data Protection Education's model Publication Policy, which is based on the ICO's 'Model Publication Scheme' which covers primary schools, high school and academies.

**Requirements of the Policy:** As a school we are required to publicise the fact that information is available under this scheme and this is carried out annually at the beginning of the new academic year in September.

Under this scheme, we agree to review the information we are publishing. This will be done annually as we update the website. We also agree to make new information available promptly – this will be done via the school newsletter and website.

As an organisation we agree to update old information. This is carried out regularly as a matter of course, often through national channels such as the Ofsted website or the DfE school performance tables.

Information about the school is available through Local Authority as well as the government's official register of educational establishments in England and Wales - Get Information About Schools (GIAS). GIAS is also the national database of school governors <https://get-information-schools.service.gov.uk/>

**What is Available:** Information that is available is detailed below in table format and shows where the information can be sourced. Some information in our Publication Scheme is available in hard copy paper format from the school office, upon request. For ease of access, a large percentage of our Publication Scheme documents are available from our school website, and these are free to download.

Under this scheme, some personal and sensitive information is exempt from publication. Where information is not available online, we must respond promptly to any requests to see it. However, we are not required to create new information in order to comply with the act.

We seek at all times to keep parents and other members of the public fully informed of our activities through our website and newsletters (also available through the school's website)

**Charging for access to information:** Where information outlined in the Definition Document is not available on the website – either because it is not in electronic format or is too unwieldy to be transferred in such a format – we will make it available to be viewed in the school.

In the first instance, you should contact the School office to arrange a viewing.

Photocopies of such information are also available, charges for copies are shown on the final page of this document.

## **How The Parkside School is responding to the requirements of the Freedom of Information Act 2000**

The purpose of our publication scheme is to demonstrate how we respond to the specific requirements of the Freedom of Information Act 2000 and how we are fulfilling the aims and objectives of the school, which are:
